

CEPE 

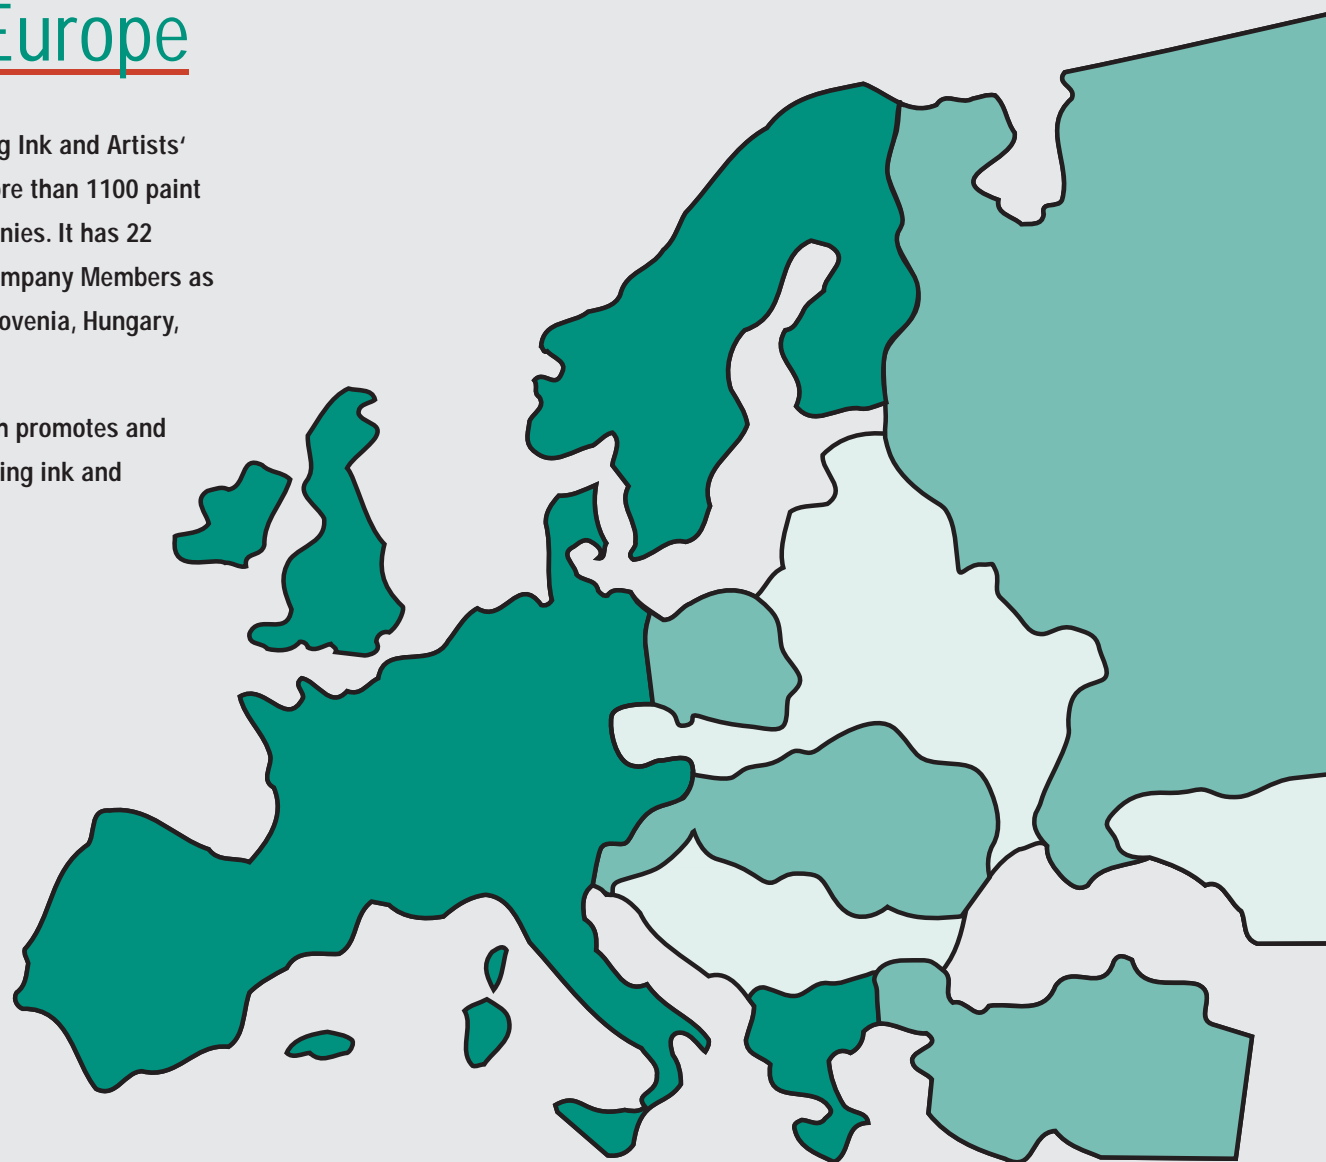

*Conseil Européen de l'Industrie des Peintures, des Encres
d'Imprimerie et des Couleurs d'Art. Depuis 1951*

A Multicoloured Europe

CEPE, the European Council of the Paint, Printing Ink and Artists' Colours Industry, represents the interests of more than 1100 paint and 150 printing ink and artists' colours companies. It has 22 Member Associations in 17 countries and 13 Company Members as well as affiliated members in Russia, Poland, Slovenia, Hungary, Romania and Turkey.

CEPE is a non-profit making organisation, which promotes and protects the common interest of the paint, printing ink and artists' colours industries at European level.

-  CEPE members
-  Affiliated members

Coatings Care® - Responsible Care®

Coatings Care® is the worldwide initiative of the paint and printing ink industry supporting the industry's commitment to health, safety and environmental (HSE) responsibilities. This programme was specifically designed for the coatings industry.

Responsible Care® has similar aims, but was created for the needs of the chemical industry. It is internationally recognised that the two programmes are compatible and supportive.

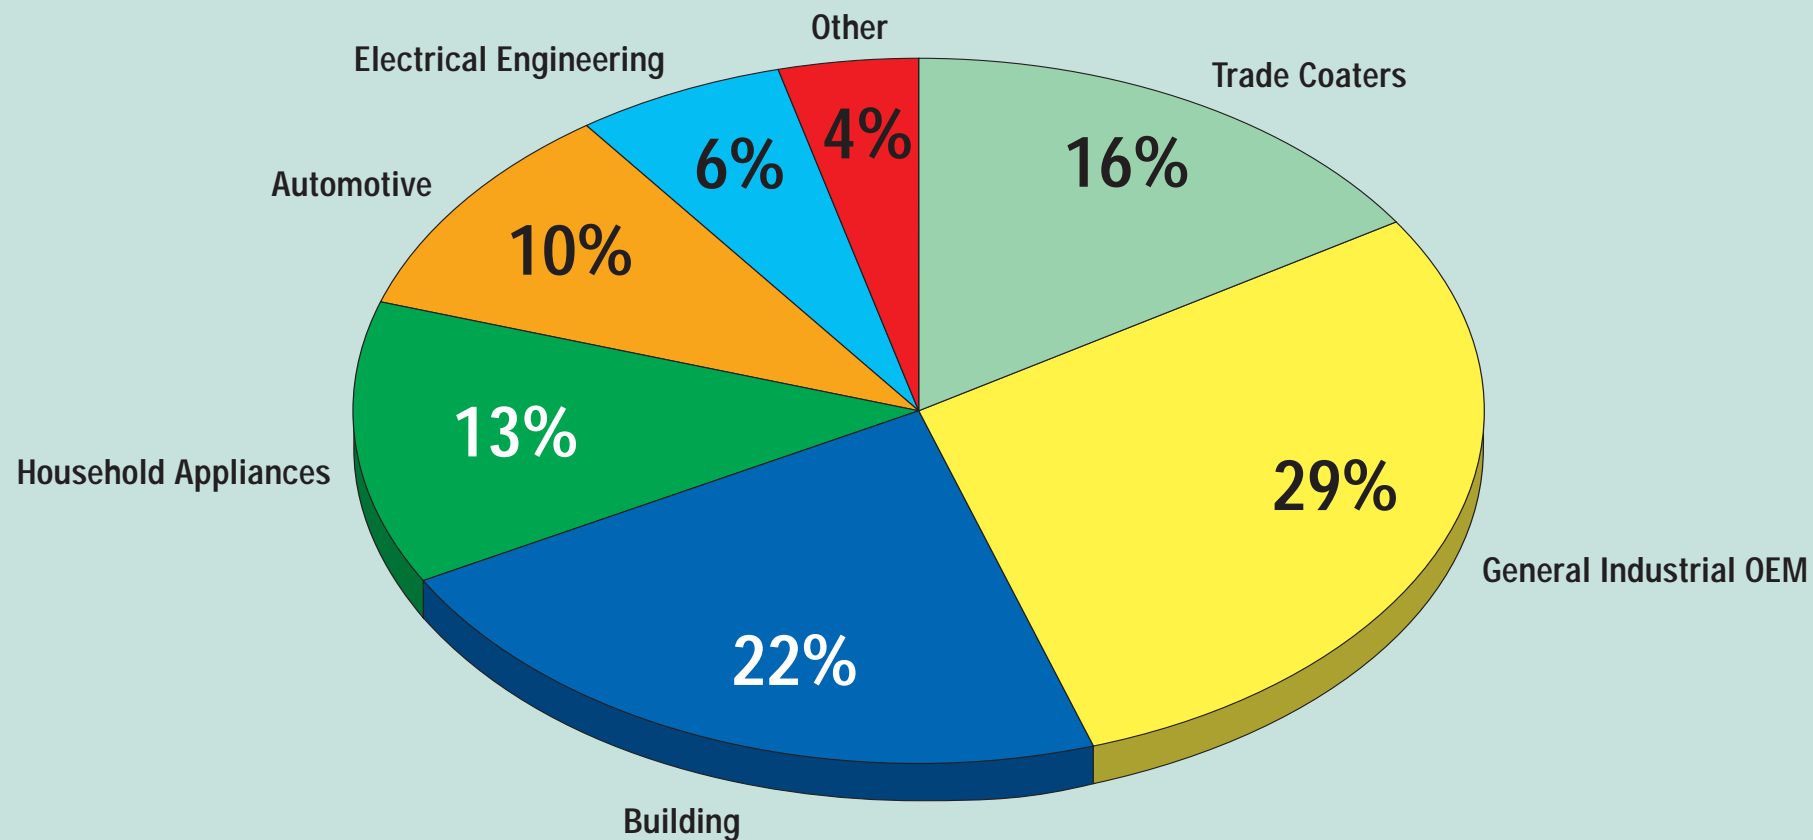

Participation in these programmes is voluntary, but CEPE encourages all its members to adopt a Care Programme to

- improve HSE achievements continuously
- promote sustainable development
